On ETSI's TTCN-3 Web Site

Stephan Schulz, Ph.D.
ETSI CTI

T3UC, Stockholm, Sweden, May 31st 2007

New Look & Feel to ETSI's TTCN-3 WWW Site

❑ **Major modification of ETSI TTCN-3 site by CTI (Centre for Testing & Interoperability – formerly PTCC) since Nov 2006**
  ➢ **www.ttcn-3.org**
❑ **Changed from TTCN-3 User Conference centered to general TTCN-3 web site**
  ➢ **Triggered by a number of requests from ETSI members for better general information on TTCN-3**
❑ **Added quick links to**
  ➢ **(Many) good reasons why to use TTCN-3**
  ➢ **Free (T3UC and ETSI) tutorials**
  ➢ **All the TTCN-3 standards and changes between versions**
  ➢ **Instructions for submission of standard change requests**
  ➢ **Join the ETSI mailing list (now at 360+ users)**
  ➢ **Contact CTI**

2

ETSI TTCN-3 WWW Site Structuring

❑ **Five main menus**
  ➢ **Technology overview**
    • **General background and other information on TTCN-3, TTCN-3 test systems, and their use**
  ➢ **Events**
    • **T3UC, TTCN-3 Certificate Exam, TestCom, etc.**
  ➢ **Further Reading**
    • **Links to methodology, book and courses**
  ➢ **Activities**
    • **TTCN-3 certificate, GO4IT, T3Open, TT- Medal, etc**
  ➢ **Tools & Assets**
    • **Open source & commercial tools, useful TTCN-3 code, public test suites, editor modes, etc**

Do you see anything missing or worthwhile to add? Let us know!

Changed TTCN-3 CR management mechanism

❑ **Based on open source bug tracking software called Mantis**
❑ **Initialized by CTI with issues starting after Edition 3.0.0 based on TC MTS spreadsheet**
  ➢ **Also developed guidelines for use of Mantis for ETSI standard change request (CR) management**
❑ **Hope is that Mantis helps making of TTCN-3 standard CR management more transparent**
  ➢ **CTI frequently gets requests for lists of changes between standard editions as well as questions why certain things have disappeared from the standard (e.g., memory management from TRI/TCI standard)**
  ➢ **Mantis has "Change Log" feature which makes this extremely easy**

"ETSI" Contribution to Open Source Community

- ❑ **ETSI has finally release t3doc as an open source tool**
  - ➢ **Originally developed by Federico Engler and distributed by Farodyne**
  - ➢ **Now available via ETSI web site and Apache 2.0 license**
- ❑ **Major bugs have been fixed**
  - ➢ **Mantis based t3doc bug tracker available for outstanding issues (mainly new features)**
  - ➢ **Includes also tool modifications to make it more useful in generating HTMLized databases for test specifications and test specification documents at ETSI**
- ❑ **Tool continues to be important and used by ETSI STFs**
  - ➢ **Use to document test suite and PIXIT**
  - ➢ **Little known about tool use outside of ETSI**
- ❑ **Next steps**
  - ➢ **Alignment with coming Part 10 of TTCN-3 standards**
  - ➢ **If time and estagiere ☺ … fix remaining bugs and add new features**
